The Queenswood Tree Guarantee

A tree is adopted for the normal lifespan of that tree but:

- In the unlikely event of any tree failing (or having to be completely felled for Health & Safety or management works) within 10 years of the date of adoption then it will be replaced free of charge with a best matched alternative selected by the Queenswood Management Team in an appropriate site in the arboretum.

We will record your contact details in the Queenswood Tree Database and if we replace your tree all reasonable steps will be taken to contact you to advise you of the situation. The change of tree will be recorded in the Queenswood Tree Database.

- If after 10 years the tree is unsuccessful then your sponsorship will be deemed to have ended and we will not normally contact you.
- Should an enquiry be made, the Queenswood Management Team reserve the right to make a charge for any replacement tree offered or agreed.

The information on the tree label will be available on the online Queenswood Tree Map and Tree finder database, although this will not include details of the inscription apart from the name of the person for whom the tree has been adopted.

Please write the inscription you would like to appear on your plaque in the space below:
